## Quality Assurance

*Anderson Laboratories, Inc.* is known for its quality services. Our current clients know that quality, integrity, dedication, and commitment are the cornerstones of our business practice, and a guide for our daily operations. Through our continued accreditation, new clients can be certain that we continue to remain committed to the quality assurance requirements necessary in today's global environment.

• Anderson Laboratories, Inc. is accredited to ISO/IEC 17025 by the American Association for Laboratory Accreditation (A2LA) and certified to ISO/IEC 17025 by Det Norske Veritas (DNV), for our customers who require maritime inspections and tests.

• We are an approved laboratory for testing to the requirements of the European Union (EU) 97/23/EC Pressure Equipment Directive (PED) by Hartford Steam Boiler International GmbH (HSBI) projects, as well as any other work required to the directive.

• We are also a qualified supplier to Rolls-Royce Corporation for chemical and mechanical testing.

In addition to the certifications and approvals, we have quality systems and compliance programs that support our customer's efforts. They include:

• ASME Sec. III, NCA-3800 and 10CFR50, Appendix B for nuclear material dedication

• MIL-Q-9058A and MIL-I-45208A for military/NAVSEA contracts

• NORSOK systems for petro/chemical requirements

• and others as required.

For more information on how you can take the best advantage of the accredited services offered by us, please contact our Quality Assurance Manager at our laboratory in Greendale, Wisconsin.
